OFFICE OF THE MORNING HERALD, Titusville, Saturday Eve., Oct. 28, 1865.

The money market in New York was active during four days, says the World at seven per cent, but loans on call were obtained easily at that rate. The supply of legitimate notes for discounting and paper stamps from eight to ten per cent for gold and currency.

The stock market was active and buoyant and prices advanced steadily. On Wednesday a meeting of stock operators was held up town in order to hear the views of the leader of Wall street about a year ago, and who has been absent from the city, owing to ill health, during that period. In regard to the future course of the market he stated that he had good reasons for assuming that the Secretary of the Treasury had abandoned the policy of sharp contraction and was in favor of a *gradual contraction equal throughout a period of fifteen or twenty years, so as not to depress the interests of the nation, but to foster enterprise and bring into active development the resources of the country. He stated that another funding loan for $50,000,000 would inevitably bring down the price of five twenty bonds below par, and that $200,000,000 loan would depress their price to 85, and that a distribution of a fourth would place government bonds where they were in 1861, or to the gold basis of 60 or 70. He assured the meeting that Congress would adopt no such suicidal policy of a sharp contraction, ruinous to the interest interests of the country. But that Mr McCulloch was clear sighted and practical man of business, who would do what the country wanted, and would do all in his power to restore prosperity to our commerce, by doing nothing in the shape of an injudicious contraction to drench the facilities afforded by the business community. Some important investments in the stock market were agreed upon at the meeting with a view to purchasing stocks.*

Mr Morton Peto on this friends visit to the stock Exchange, during the morning. The party afterwards visited the Gold room, to the Sub Treasury and to various other financial institutions in Wall street.

Petroleum stocks were generally firm at the first Board. Rouchoff Run sold at $13 50. Hogsen Coal and Oil 50. Bird's Farm 67c. Baldwin $1 10. Cherry Run 50. First National 80c. Hon. McClintock 6h 50. McKinley 6h 40 $2 00. Manhattan 20. Oil Creek $1 00.

PETROLEUM MARKETS.

TITUSVILLE Saturday Eve October 28

The petroleum market has still a tendency downward. Most of the transactions in the oil limits have ceased at present rates. There are few, if any, orders from New York coming, to the high details of the market in Pithole and on the Creek. The markets in New York are since Monday low for this season of the year and are still declining.

OPEN DAY AND NIGHT

VERY LATEST NEWS.

New York, Oct 28

Special to the Times

The Cabinet meeting of to day was of protracted duration, and was attended by all the Secretaries for the first time in several months.

It is reported that the recent correspondence between Minister Adams and Earl Russell was generally discussed without reference to any action on the subject.

Among the prominent rebels pardoned to day were Henry M Rector, ex Governor of Arkansas, and T H Bradleson, member of Rebel Congress from Georgia.

It has been reported that George W Gayle, the Alabama lawyer, who offered one hundred thousand dollars reward for the assassination of Mr Lincoln, has been pardoned. This is incorrect, as he comes under the 13th exception. However he may be considered pardoned as his rank in the rebel army was only Colonel.

This evening's Republican announces that the body of Colonel Hildgreen, who was killed near Richmond on March 6th, 1864 on St Patrick's Rock, is expected here to morrow, and will lay in state at the Council Chamber at the City Hall until Thursday next, with a guard of honor. It is also understood that Henry Ward Beecher will preach the funeral sermon in his honor, on Sunday, at the church of the Rev. Dr Sunderland.

Intelligence has been received here to the government that an influential delegation of Canadians are shortly to come here, to make efforts to re establish the Treaty of Reciprocity between the United States and Canada.

Chicago, Oct 28

The first snow of the season fell here this morning.

Special to the Herald

Washington, Oct 27

Gen Mussey, the Secretary to the President, is ordered to the command of his regiment.

Gen Grant has purchased, and will refit as his *winter residence, a portion of the property* known as the Douglas Hospital.

The Herald states that Jeff Davis is to be arraigned simply on the charge of treason and that James Speed, Gen Ross, John Chilton and Wm M Evarts are retained by the Government as the prosecuting counsel, and Charles O Connor and R H Gillett for the defense.

The Herald states that there was a seizure of alcohol yesterday for revenue frauds in Brooklyn, and that a Custom House clerk a Virginia ex rebel and Chaves Brooklyn firm are implicated.

New York, Oct 28

The Herald prints a private dispatch, dated West Point, Oct 26th, stating that Gen Johnson have discovered most stupendous frauds in the Treasury Department, and has arrested Harrison Johnston, special Treasury agent at Columbus, all his sub agents in three counties taken possession of their books and suspended operations. It is rumored that the investigation will be continued to high officials.

The World's Washington special says:

Dispatches received here state that the New Orleans Convention to sustain President Johnson was a success.

The rumor that our naval vessels are to be put in commission is untrue.

It is reported that Caleb Cushing will supersede Mr Adams in England and Mr Adams in turn will become Secretary of State.

New York Oct 28

The Post's Washington special says:

The President has not yet made concession in the case of Henry Wirz.

The Commercial says:

Money is easier. Lenders are anxious to employ their balances and again are seeking borrowers though in no case at lower than seven per cent on call loans.

The demand for stocks is fair, though activity is less pronounced than yesterday.

Gold is steady, the prevailing tendency being toward easier rates.

The exports of gold are for [illegible] $896,[illegible]. A large proportion of the exports is gold bars.

The Senate of Peruvian Confederation held a session on this city last evening, and established Admiral Malitons and Naval Bureaus. Other important business relative to the organization in America and Ireland was transacted.

Washington, Oct 28

The following is the text of the communication dated Washington D C 28th, 1865, and transmitted to James T Johnson Provisional Governor of Georgia, at Milledgeville:

Your several telegrams have been received. The President of the United States cannot recognize the people of any State as having resumed their relations of loyalty to the Union that admits as legal obligations contracts or debts made in their name to promote the war of the rebellion. (Signed)

WILLIAM H SEWARD

Fortress Monroe Oct 28

The steamship Victor, from New York the 21st for New Orleans, was towed into Hampton Roads to day by the steamer Alabama.

She encountered a terrific gale from the 24th to the 27th. She broke her rudder chain. Her boilers and engines were disabled and she is leaking badly.

The crew is exhausted.

The Alabama spoke the English brig C W Rivers, from Galveston for Liverpool, with cotton. She was dismasted about 100 miles south of Charleston.

The 26th, same day, saw two dismasted ships with colors reversed.

New York Oct 29

F Bohegin, who was arrested yesterday, had over one hundred thousand dollars in counterfeit treasury notes and fractional postal currency in his possession.

Charleston, S C, Oct 28

The steamer Republic, which left New York on the 18th for New Orleans, was wrecked off the coast of Georgia on Wednesday last.

New York, Oct 29

This morning at about a quarter to 6 o'clock, while about of 20th street North River, the boiler of the steamer St John from Albany, exploded. Eleven persons were killed, seventeen scalded and one is missing. There were only about one hundred persons aboard, so that the casualties are not so great as they would have been during the summer.

THE BATES PETROLEUM COMPANY OF NEW YORK, MASSACHUSETTS AND NEW HAMPSHIRE. A joint meeting of the Bates Petroleum Company of New York, Bass and Leather Dealers' Petroleum Company of Boston, and New Hampshire Petroleum Company of Manchester was held at office 55 Congress Street, Tuesday Sept. 19, 10 o'clock A M, for the purpose of acting upon a charter granted by the State of Pennsylvania, whereby the three companies are consolidated under the name of the Bates Petroleum Company. The Company was organized by the election of thirteen Directors, viz: Francis E. Wilson, George A. Cobb, Benjamin F. Martin, Francis E. Lancaster, Oliver R. Steel, of New York, Martin S. Bates, John S. Fogg, Washburn O. Moffitt, Benjamin W. Harris of Boston, Benjamin F. Martin, George A. French, William F. Newell, Jacob O. Cilley, of Manchester. The Directors subsequently elected Martin S. Bates, Esq., of Boston President, Benjamin F. Martin, Esq., of Manchester, N. H., Vice President, John S. Fogg, Esq., of Boston, Treasurer, James S. Goodrich, Esq., of Boston, Secretary, George Cornish, Esq., of New York, and George A. French, Esq., of Manchester, N. H., Transfer Agents. Norman K. Bates, Esq., of Titusville, Pa., Superintendent, Edward Reed F. Silver, Esq., of Manchester, N. H., Superintendent.

The property of this company is located on and near Pithole Creek, which is now the point of the most exciting interest in all the oil regions, and promises to be one of the most remunerative properties in the process of development.

The company has now two engines at work boring for oil, indications from which are quite flattering. They have also contracted for more engines, which will be put to work with increased vigor. Further information may be had by inquiry at office in Chase House, Room No 3.

NEWSPAPER ARCHIVE®

Titusville Morning Herald.

Titusville, Monday, Oct. 30, 1865.

Maximilian's Decree.

Maximilian has seized upon the alleged flight of Juarez as a pretext for the fulmination of a decree directed against the supporters and defenders of Mexican independence, which is very insolent in tone, and characteristic of the tendencies of Austrian despotism. This document will, we think, be interesting to all those who may wish to study in any form it may assume. This interpolated Emperor, fastened upon his throne by the bayonets of plunderers and murderers, addresses himself to the ill-advised task of putting down the national will by the extremest measures known to history—that is, death to those who continue to oppose him, and he thinks he can do so by that fiat succumbed to the "national will," meaning, and intending, thereby, the Emperor and his party. But we happen to be well aware of the combined operations of the Spanish, French and English fleets, which events united in the invasion of Mexican soil and of the subsequent events culminating in the establishment of the new empire. It will not do to say the "national will" was consulted in all these proceedings, or any of them. The proclamation declaims about the excess that may be committed by guerrilla bands, and says *nothing* of the atrocious misconduct of the invaders—Who was it that drove the forces of Juarez into the mountains and isolated them from the bulk of the people but the interlopers themselves? Guerrilla warfare is never to be deplored, but if tyrants will compel men to such a course, they have nobody to blame but themselves. The decree would hardly have been issued unless Maximilian had thought the time had come for a short sharp and cruel work. If he had a Jeffries with him he might facilitate the undertaking by holding bloody assizes on the soil of Mexico. On the American continent patriotism has hitherto been regarded as a virtue, but this royal Austrian vagabond would change the course of sentiment, and constitute new criterions wherewith to judge the people. We have the fate of unhappy Poland before us. Austria had a hand in the partition of that unfortunate country, and it has only left the wing off its hatchets when it sent a section of its house to plunder in another latitude.

The Mexicans ought not to despair of the Republic. There was a time when the forces of the invaders seemed entirely too few for a serious attempt to subdue the Mexicans. Suppose that at that time Juarez had put to death the allies who fell into his hands? Such a course would have incurred the condemnation of the civilized world as being opposed to the enlightened rules of modern warfare, even though the captives were invaders. But the Austrian is strong in hand now, and he is bent on abandoning a principle which proved to be a panoply of protection to his followers in the hour of their defeat. He can get no sympathy, as assuredly he is entitled to none, while acting in this way. Let the Mexicans retain as far as possible their organizations and their spirit, and Max will be obliged yet to land in his horses and quit the country. When Louis Napoleon shall draw his last breath, the main stay of the usurper's power will be gone, and then, unless the affections of the people are strangely turned to the foreign idol, that idol will be crushed to atoms. But Uncle Sam may do the job in fine, but how soon or in what way every one may conjecture for himself. We are fully satisfied that our Government has not lost sight of the Mexican question, whatever may be the entanglements with which it is now mixed up. In one of his late speeches—that delivered at Auburn—Mr. Seward said: "With whatever journey we may add here to our inherited principle of avoiding entangling alliances with foreign nations, the United States must continue to exercise, as before our civil war they did exercise, a just and beneficent influence in the international conduct of foreign States, particularly those which are near to us on this continent, and which are especially endeared to us by their adoption of republican institutions. That just influence of ours was impaired, as our lot to have been apprehended, by the American people, when they fell into the distractions of civil war. With the return of peace it is coming back to us again, in greater strength than ever. I am sure that this important interest has not been lost sight of by the President of the United States for a single moment, and I expect that we shall see republican institutions, wherever they have been heretofore established throughout the American continent, speedily vindicated, renewed and reinvigorated."

Our own citizens must have patience and not expect too much at once.

SALE OF THE EVERETT MANSION.—Yesterday the estate of the late Hon. Edward Everett, No. 32 Summer street, was sold at auction, including household furniture and other articles. The attendance was very large, doubtless drawn together by the respect which our citizens bear to his memory. The bidding was very spirited and many articles sold at a figure above their intrinsic value, on account of the associations clustered around them. The estate containing 1,112½ square feet, was sold to Francis P. Hayes, for $13 85 per square foot, or $15,971 48 which sum is considered by high rate other property in that locality has been sold for recently. Immediately after the sale of the mansion house estate, a large set of carved oak bonk cases and shelves, made expressly for Mr. Everett's extensive library, with chimney pieces, &c., constituting a very elegant article of library furniture, was disposed of at good prices. The Indian curiosities and other articles presented to Mr. Everett, from time to time, by various chiefs of Indian tribes, were sought for by the curious, and the antiquarian, too, was present, and paid liberal prices for relics of old savagery, of which there were a large number.—*Boston Post.*

—Emigrants are flocking into Missouri by the hundred and thousand, and the hopes of the advocates of a "free State" are being more than realized.

—The President has declined to interfere with the order restoring the Sea Islands to their owners.

The Mormons.

Mr. A. Richardson, who accompanies Speaker Colfax on his journey from Missouri to the Pacific, gives a sketch of a conversation with Brigham Young, in which the "Saints" are "Saints" there—New Tabernacle—Prices of Religion and the Rebellion, "Polygamy," &c. The Mormons are eager to prove their loyalty to the Government, their sympathies with the Union cause, and their joy at the triumphs, but what degree of credit to attach to these "professions" is for the reader to determine.

B—Mormon is a great deal about the mysteries of God. Within they know nothing about it, nothing about it. Religion must display itself in the fruits of religion. I have ever argued my cause in the same way. I have ever argued my cause in the same way, and I will restore it forwhile.

Christ's religion I believe in—the self-sacrificing life—of justice, charity and love. I believe in the religion of the Bible, and I believe in the religion of the Bible, and I believe in the religion of the Bible, and

OIL LEASES.

THE BRUNSWICK FARM OIL COMPANY have just organized, and offer to dispose of a few of their choice

BOTTOM LAND

leases on reasonable terms. The Brunswick Farm lies on West Pithole Creek, opposite the Vose Farm, and more Proton about three miles from Oil Creek, and one and a half from Pithole City. The Miller Farm Plank Road will pass along, or across it. There are producing wells on Clarke Run, within a half mile of it, and also below it on West Pithole Creek. The latter is showing within 20 rods of it, and risk the chance of a producing well. The surface indications can not be surpassed. The farm has 20 acres of creek bottom land, and about 60 more of level, being but little higher than the creek, and not 150 rods in all, and is heavily timbered in the bottoms, with Cherry and dense undergrowth, and elsewhere with oak. Land is well watered with springs, and the creek, and plentifully covered with sand rock.

THE GREER WELL,

ON THE YORK FARM,

joining, has reached the fourth sand rock, (so called) at about 700 feet. This well is showing freely. Many wells are now going down close adjoining. The property will bear inspection. There is no better on Pithole. For leases or information apply to

WARREN PAINE, Supt.,

on the premises, or to any of the Company at the Bush House, Titusville, Pa.

PITHOLE IS KING!

Pithole Creek! Pithole Creek!

NATIONAL

PETROLEUM ASSOCIATION,

OF TITUSVILLE.

PROSPECTUS.

GEORGE B. REED & CO., having purchased twenty-two acres of good oil territory in fee in Pennsylvania, and known as part of the Anderson Farm, the balance of this farm has been lately purchased by the Union Oil Association for immediate development. They have already completed their survey, preparatory to putting down several wells.

The property is all low, flat land, every acre suitable for boring, and is located in a very deep valley, the same being very heavily timbered (principally cherry and oak,) and geologically is the opposite, and is a mile to the famous Holmden Farm, on same creek, upon which the celebrated Frazer Island and Twin wells, now flowing about 2,000 barrels per day, are located.

There are some sixty wells going down within a short distance of the Anderson property, with good indications of oil, some of which are on adjoining farms.

The above described property we propose as a basis for the formation of an association, to be called the National Petroleum Association.

MODE OF DEVELOPMENT.—Instead of the Association being at the expense of putting down wells, we bind ourselves to furnish all materials for putting down ONE WELL, to be called the MERRIMACKPLANK WELL and to sink the same to 650 feet, unless oil is found in paying quantities at a less depth, and to test for ten days after solid well shall have been completed, the well to be commenced immediately after the organization of this association, and to be prosecuted with vigor, night and day, till completed; after which we hereby agree to surrender the same, together with the machinery and tools, to the association, free of all expense. We also agree to survey the property into one-half acre lots, and furnish the Association with map of survey. It is confidently believed that the sold lots can be leased for a handsome bonus, reserving one-half of the oil on the land net to us. This it will be readily seen that there can be no earthly risk to the stockholders, for the profits of the well, when completed, together with the bonus realized from the sale of the leases, will, no doubt, not only exceed the cost of the territory, but make a handsome dividend to the stockholders. Again the stockholders have a double interest (individual) so there can be no over-issuing of stock.

Land in this county is rapidly rising in value, and it is confidently believed that each share in this association will readily sell for at least six times its original cost within a short time.

The capital of the association shall be Fifty Thousand Dollars, and there shall be One Hundred shares, the original cost of which shall be Five Hundred Dollars each, and each share shall be entitled to one vote, and the association shall be immediately organized by the appointment of President and Secretary, who shall issue a regular certificate of scrip, and substitute the same for the receipt given by the general trustee.

From the Titusville HERALD.

A New Organization.

Bogus oil companies, with high sounding names and overgrown capitals, have done more injury to the true interest of the oil region than any other agency. But, thanks to the old Providence, though the evil men have been hawked at, and nearly killed by the opposing press, it is now passing in a healthy success, superior to all such humbugs, and has already announced its intent upon a solid and substantial basis.

We take pleasure in calling public attention to a new association, originated by Messrs. George B. Reed & Co., of this borough. Their plan is to purchase good oil territory in fee and thus secure an undivided interest, so that the stockholders know exactly what they hold in the association. The property is to be held by a board of trust, and the articles of the association, with the names of the original subscribers, are to be recorded. This will prevent over issue of stock, and secure a profitable investment. If the property is selected with judgment. They have a lot of land on Pithole which they are now working in such an association which they propose leasing, say one-half, at present, and keep the balance for a rise of market, in hopes thereby to make a profitable investment for their stockholders.

THE ANDERSON FARM ON PITHOLE.

Editors of Morning Herald:

A few days since I surveyed and mapped for Messrs. George B. Reed & Co., a twenty-two acre tract of oil land, known as a part of the Anderson Farm, lying on the north Pithole Creek, southeast of Pleasantville. The tract of land was subdivided into half-acre lots, for the purpose of leasing to those who desire to risk the penny to win the fortune. Shakespeare says

"There is a tide in the affairs of men
Which taken at the flood leads on to fortune.
Omitted, all the voyage of their lives
Is bound in shallows and miseries."

The truth of that immortal saying has been most signally exemplified by the U. seekers of this old Dominion. Having had a wide observation and experience in this region, and finding a tract of land, which by its contour, timber, soil, deep depression, and all its significant oil-ness, is likely analogous to the surroundings of the rich band of Oil Creek, Westmoreland and Hempfield wells at Pithole city, and being deeply impressed with the merits of said land for oil purposes, I take pleasure in commending that impression to those who would like the tide at the flood and invest freely. The land is surrounded by the finest agricultural neighborhood in this country, and is accessible by the road that runs from Pleasantville. It is owned by the Nationals at Petroleum Association, and held in trust by and under the able management of George B. Reed & Co., of this borough, of whom all information respecting it may be obtained.

Yours, &c.

H. R. FRAZER,

Civil Engineer and Surveyor.

Titusville, Aug. 8th, 1865.

The New York Herald of Sunday July 30th, says, The Anderson farm is all flat, in a very deep ravine or gorge, and similar in all its geological formation to the Holmden farm upon which the Drake oil wells are located. This farm has lately been purchased in Messrs. George B. Reed & Co., of Titusville, Pa., who bear the reputation of being an honorable and responsible firm, and forms an association on this basis, every shareholder's interest is clearly defined, so that there can be no over-issue of stocks. If this plan should be generally adopted it might prevent the gigantic swindles imposed upon the public by unscrupulous stock jobbers.

CARVER'S

NEW DOUBLE ACTING

OIL PUMP

AND GAS EJECTOR.

WE have just completed arrangements with the Patentee of this improved pump for the introduction into the Oil Regions of Pennsylvania. This pump is double acting, throwing the oil at both the upward and downward strokes of the piston, and producing nearly double the amount of oil than by the common pump. It also requires far less power than the common pump to produce a greater amount of oil. The

OUTER BARREL

furnishes an escape for the surplus gas and thus enables the pump to work, without being affected thereby, and thus saves the bursting of tubes, and damaging of valves, bursting of seed bags and tubing by the force of the gas. The suction or drafts of these pumps is not only much greater than that of any other pump, but is also

CONTINUOUS,

and being broken or checked by the DOWNWARD STROKE OF THE PISTON, and has a power to draw the oil from the open well, unequalled by any other pump or ejector now in use. Owing to the low price of oil it has been the aim to reduce the price of these pumps for the present from $333 to $275.

OLD ESTABLISHED HOSPITAL

FOR THE TREATMENT OF

PRIVATE DISEASES,

Under the Management of

DR. LISPENARD, STEVENS & DR. REYNOLDS,

W. C. Lispenard, M.D.,
Consulting Physician and Surgeon,

ROCHESTER, N. Y.

Dr. LISPENARD is one of the most distinguished and successful Physicians and surgeons in the United States. His fame is personally known in every city and village in the Union and the British Provinces.

Dr. REYNOLDS announces to the sick and suffering, that his hospital is still open for the reception of patients, and that he is daily making rapid and permanent cures in all parts of the United States and Canadas, with his celebrated remedies which are sent by Express, under seal, to all parts of the world. The many testimonials made by cured sufferers with which the city and other papers of the Union is flooded, render it unnecessary to caution the public against base, cunning, designing men, who call themselves Doctors of Medicine, in their attempt to rob them the appearance of respectability. Dr. L. is pleased to announce to those afflicted with any form of private disease, that his cures are the most remarkable on record, and he defies the world of the profession, and the assertion of the sick.

By a long course of study and practical experience Dr. L. has now the gratification of pronouncing a certain and effectual remedy for those diseases, which has never failed in the hands of those who have used it, since he first introduced them, to cure the most alarming cases, and that in a very short time, without the aid of mercury, or any other injurious drug. During the last forty years Dr. L. has cured more than one hundred and forty thousand cases of the above character, and it may be safely that more than one half of the patients he has recently treated with mercury and other injurious medicines.

Married or Single Ladies,

All female complaints, such as irregularity, obstruction or suppression of the menses, or whites, are treated by an unexceptionable remedy. The most delicate rooms always in reserve for ladies who may wish to consult us with regard to any of these complaints, including cohabitation in which they suppose themselves to be in a delicate situation. Ladies in a critical situation should not use them, the powerful effects of which will be found in the directions accompanying each box. Price $1. Sent by mail to any part of the world. Beware of counterfeits. There is none genuine but those prepared by Dr. Reynolds.

Dr. Reynolds' FRENCH SAFE, is a certain safe and sure preventative against pregnancy and disease. Price $1. Sent by mail to any part of the Union.

Young Men

Who, by indulging in secret habits, have contracted that soul-subduing, mind-prostrating, body-destroying vice, should apply to Dr. Reynolds without delay.

In these as well as all other cases of private nature Dr. Reynolds commences an early application without any cause or separation, decided that is the case with the reach of mortality shall ever leave him without a cure or satisfactory reason.

Dr. Reynolds' Great Work on PRIVATE MEDICAL GUIDE, beautifully illustrated, with near 200 pages. Price 25 cents.

Letters describing age, symptoms, occupation, &c., promptly attended to, and medicines, secretly sent from observation, sent to all parts of the world.

No letters will be answered unless they contain remittance of one dollar, consultation fee. Consultation at the Office free of charge.

Consulting Office and Operating Rooms, corner Mill and Market streets, up stairs. Office hours, calling will see no one but the Doctor.

The above correspondence of medical gentlemen is the sole scientific and approved course of treatment and a rapid and permanent cure. All letters addressed Dr. E. J. Reynolds, Rochester, N. Y. will meet with prompt attention.

THE ONLY PLACE WHERE A Cure can be Obtained.

DR. FISHBLATT, has discovered the most certain, speedy, and effectual Remedy in the World for Weakness of the Back or Spine, Affection of the Kidneys and Bladder, Involuntary Discharges, Impotency, General Debility, Nervousness, Dyspepsia, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Trembling, Diseases of Sight, Giddiness, Disease of the Head, Throat, Nose, or Skin, Affections of the Liver, Lungs, Stomach or Bowels, these terrible disorders arising from Solitary Habits of Youth—secret and solitary practice more fatal to its victims than the song of Sirens to the Mariners of Ulysses, blighting their most brilliant hopes or anticipations, rendering marriage, &c. impossible.

YOUNG MEN

especially, who have become the victims of Solitary Vice, that deceitful and destructive habit which annually sacrifices an untold number of young men of the most exalted talents and brilliant intellect, who might otherwise command listening Senates with the thunders of eloquence, or wakeed to ecstacy the living lyre, may call with full confidence.

MARRIAGE.

Married persons or young men contemplating marriage being aware of Physical Weakness, Organic Debility, Deformities, or other causes.

He who places himself under the care of Dr. F. may religiously confide in his honor as a gentleman and a delicately rely upon his skill as a physician.

ORGANIC WEAKNESS.

Immediately cured and full vigor restored.

This depressing affection, which renders life miserable and marriage impossible is the penalty paid by the victims of improper indulgences. Young persons are apt to consider causes from that being aware of the dreadful consequences that may ensue. Now who understands the subject will pretend to deny that the power of procreation is not spared by those falling in improper habits than by the prudent? Besides being deprived of healthy offspring the most serious and distressing symptoms of both body and mind arise. The system becomes deranged, the physical and mental faculties weakened, loss of sight, nervous irritability, dyspepsia, palpitation of the heart, indigestion, constitutional debility and wasting of the frame, consumption, decay and death.

DR. FISHBLATT graduated from one of the most eminent Colleges in the United States; has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being startled at sudden sounds, palpitations, with frequent blushing, attended sometimes with derangement of mind, were immediately cured.

TAKE PARTICULAR NOTICE.

Dr. F. addresses all those who have injured themselves by improper indulgence and solitary habits, which ruin both body and mind, unfitting them for either business, study, society or marriage.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.

MENTALLY.—The fearful effects of the mind are not to be dreaded. Loss of memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self-Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Thousands of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous, and emaciated, have a singular appearance about the eyes, cough, and symptoms of consumption.

YOUNG MEN

Who have injured themselves by a certain practice indulged in when alone, a habit frequently learned from evil companions, or at school, the effects of which nightly robs, even asleep, and, if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of the country, the pride of his parents, should be snatched from prospects and enjoyments of life by the consequences of deviating from the path of nature, and indulging in certain secret habits. Such persons must before contemplating

MARRIAGE,

reflect that a sound mind and body are the most necessary requisites to promote conjugal happiness. Indeed without these the journey through life becomes a wilderness; the prospect hourly darkens to the view, the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of others becomes blighted with our own.

Dr. E. Fishblatt's

Office is 245 Main street, 2 doors below Seventh Division street, Buffalo, N. Y.

Also he consulted on Mercurial Affections, Constitution, Liver Complaint, Chronic Affections, and all cases of ingrained one of whatever description that may be declared incurable by other Physicians, he engages to make immediate cure of. From his extensive practice in the Science of Medicine, he is enabled to address himself to the public, as being the only one in the city of Buffalo capable of affording speedy relief. All cases of venereal will be guaranteed.

He warrants a cure without the use of mercury, or other dangerous medicines. Recent cases cured in from 1 to 3 days.

☞ No letters received unless post paid and containing a stamp to be used on the reply. Persons writing should state age and send portion of advertisement containing symptoms.

3. Letters addressed to Dr. FISHBLATT, at office 245 Main street, Buffalo, N. Y., will receive immediate attention. Those at a distance can be treated with safety.

The Doctor's DIPLOMA hangs in his office.

NOTICE is hereby given that an application has been made to the Governor of the Commonwealth of Pennsylvania, for the PARDON OF JOHN BRENNEN, convicted of Larceny at the August Term, 1865, of Court of Quarter Sessions of Crawford County.

Editorial Notes—Down the Creek.

TARR FARM, Oct 28

The history of the Tarr farm, as oil producing territory, dates from June 1861, when the Crane & Stewart well was struck. The farm is named from James Tarr, and embraces a tract of one hundred and ninety-eight acres. It is bounded on the north by the Story farm, east by high lands, (now producing) south by Blood farm, and west by Oil creek. The Crane & Stewart well was on the first lease issued, and flowed one hundred barrels, and was on the flat, within five rods of the Waterline. The second and best lease was made to Wm. Phillips for the locality of one quarter the oil in the barrel, but the Crescent well was struck before the Phillips, and produced between three hundred and four hundred barrels. Then came the Phillips No 1, which flowed about four hundred barrels. The celebrated Phillips No. 2 was struck in October 1864, and flowed three thousand barrels. Petroleum was then a drug in the market, and sold for a mere song, the price ranging from fifteen to twenty five cents per barrel, and on the Blood farm, near adjoining, deposits of as low as ten cents per barrel. It was impossible to provide tankage for the Phillips, and a stopcock was put in to prevent waste, and the flow shut off at intervals, until the strike of the Woodford well, about four rods from the Phillips. The Woodford interfered with the Phillips, and a compromise was finally effected by the consolidation of the companies, in such a manner that either company drew one half of the other's productions.

The strike of the Woodford occurred on the 18th of July, 1862, and its production was rated at one thousand five hundred barrels. The Phillips flowed two years. These wells, although striking the same crevice, as it was supposed, presented a striking contrast in the appearance of the oil—the Phillips pouring a stream of pure oil, and the Woodford gushing an emulsified product, which was apportioned to the mixture of water.

The Phillips lease comprised the whole line of the creek, extending five rods to each side. It was exclusively owned by Wm Phillips who leased it for one-fourth of the oil. This is the only large well on Oil creek which still continues a paying production. The Phillips No 2 now pumps two hundred and fifty barrels, and No 1 Phillips about thirty—No 2 ranking all wells on the farm. The Woodford pumps about twenty five barrels.

In the month of August, 1864, Mr Tarr sold one-half his land interest in the oil for $40,000 to Clark & Sumner, of New York. The same parties offered $60,000 for the entire property, but Mr. Tarr refused to sell. Mr Clark & Sumner resold a one-third interest of their purchase to Col Payne, Bernard Hughes, L C Spencer and others, of Rochester, for $45,000, but the rapid decline in the price of oil, made these parties regret their purchase, and they subsequently disposed of their interest to the same firm at the buying price.

New and paying wells were continually developed, and Mr Tarr has, of course, accumulated a splendid fortune. One year ago, when gold was worth $2 50, he was offered his hands one sum of $800,000 cash for the fee simple of the Tarr farm, which was equivalent to $2 00,000. He refused it. During the last summer quite a number of good wells have been struck on the hill side, and have given a new impetus to speculation and trade.

The Tarr farm oil interests are now united and controlled as follows: One half by James Tarr, one-quarter by Clark & Sumner, and one quarter by the Tarr Farm Petroleum Company. For the statistics and general information presented in this communication I am indebted to Mr A. E. Higbee, agent for James Tarr, J. W. Doubleday, agent for Clark & Sumner, and S. M. Aldrich, agent for the Tarr Farm Petroleum Company.

The following tabular statement of the producing wells, giving the names, dates, daily production and aggregate, is furnished by Mr Aldrich.

Name of Well	Time Struck		No bbls per day	Total product
Crescent	June	1861	600	12,000
Phillips No 1			300	6,000
Phillips " 2	Sept	"	400	8,000
Globe " 1	Oct	"	1000	250,000

" 253	Oct	"	50	200
" 252		"	50	200
			50	200

The above wells are not all producing at the present writing. The following statement, furnished by Mr. Higbee, includes the operative wells.

Names	Bbls
Monitor wells 1 2 and 3	
Phillips 1 and 2	20
Palmer Suspended for repairs	20
Spooner on flats	
Eagle to be tested to-day	20
Higbee, temporarily suspended	
Crescent, running out, for a 3 inch tubing 4 inch valve, 4 foot working barrel	
Woodford	
Patrick, Drilling in third sand	25
Sterling	
Cornwall	7
Scott and Sherman, land	100
Crouch 1 and 2	75
Dennison 1 and 2	140
Rabbit, No. 1	75
Corwin	50
Weisel	50
Jennie	30
Bear Homestead, 1 and 2	40
Archer and Vandyck	120
Smith & Co, 1 and 2	50
Barnett	50
Hammer	50
	50

Monitors 2 and 3, not tested. Patrick and Half Moon not tested. Fifteen new wells going down on side hill. The average daily production of the former approximates 800 barrels.

The Tarr farm boasts a population of about 600. It comprises a grassy and pleasant slope from the bluffs, and lies at a broad sweep of the creek, occupying altogether a very attractive site for a post office exhibits larger mail transactions than any point between Titusville and Oil City, in consequence of delivering the mail matter for Story and Blood farms and Cherry Run. Mr A. Holt, the Postmaster, will hereafter act as agent for the MORNING HERALD at this point. He is a relative, by the way, of the distinguished Hon Advocate who was formerly Postmaster General.

Mr. Quincy Stephenson, the gentlemanly telegraph operator of the United States line, will supply the HERALD posted in future on all points of interest relating to new oil strikes and current transactions.

Near the machine shop of Archer & Clark, I found our old friend and schoolfellow, G. W. Brown, engaged in pumping his new well on the hillside, which is producing about sixty barrels and constantly increasing. The machine shop is one of the institutions of Tarr farm. It has a working capacity for about thirty men, runs five forges, six lathes, planer, drills, &c.

The Tarr Exchange Hotel, conducted by Crocker & O'Neill, is the only public house of importance and of course is largely patronized. It is proper to state that arrangements have been made for regular correspondence at this point, and the readers of the HERALD may in future rely upon having some lively local information from this important section. There is probably no better oil producing territory on the creek. The product is about equally divided between Clark and Tarr farms, and commands a sterling price. Yesterday it was sold at $7 25 for the crude of some connections at $7 50.

Our acknowledgements are specially due to Mr Higbee for statistics—and general information received in this connection. Mr H has been for some months laboring with the production of Tarr farm, and is practically familiar with the subject in all its details. Mr J. W. Doubleday, for Tarr Farm Pet Co, and Mr S. M. Aldrich, agent for Clark & Sumner, have also laid us under obligations of the same kind. In short, our visit to Tarr farm has been full of pleasure and profit, and we shall improve the first opportunity for the repetition.

J. D. Darrow Discharged and Re-Arrested.

We noted on Saturday the arrest of J. D. Darrow, the charge having been preferred that he was the person who robbed and shot Mr Mor shall on Sunday the 29th.

The examination was held on Saturday before Justice Stewart, of Cherry Run township, J. B. Gaskins, Esq., appeared as counsel for the prisoner.

The complainant in the church was positive in the belief that Darrow was the identical person who robbed and shot him on the occasion referred to.

A Mr Phelps testified that he saw the defendant on the road not far from the scene of the robbery about the time of the occurrence.

The defense proved by the testimony of a man by the name of Harwood, formerly of Syracuse, and who keeps second hand clothes for sale in a shanty near Mr Chase's office on Spring street, that J. D. Darrow was in that building at the time of the robbery. There were other testimony to the same effect in the defense, which by common fame.

Justice Stewart judge discharged the prisoner from custody, and he returned to Titusville, Sunday night.

Yesterday he was again arrested under much graver charge. We understand that he will be removed to Pleasantville for trial to-day. We decline to publish or withhold facts which have come to our knowledge, and to receive discussion of this case, until a more convenient season. The public may rest assured that Chief Connell and his assistants Davis and others have been quietly and effectually at work for some time past.

Barrel Factories.

The cooperage business is one of considerable importance in this city, and becoming more so every day, as the demand for oil increases. We lately visited one of the factories, and the collection of it may not prove uninteresting.

Hence barrel factory fronts on West Market street 150 feet, having a depth of 60 feet, and one hundred feet wide. The machinery is run by a Wright engine. The staves are of white oak and are seasoned on the premises, which for oil barrels is considered the safest plan. The staves are first put into a dressing machine which makes them smooth on each surface, then are thrown off to a jointer by another machine, and then put into a levelling machine which levels the edges. They are now ready to be set up. The operation is performed by means of what is called a trussing hoop which is temporarily holds them in place. In order to fit and the barrel to a proper shape, a fire is built inside, rendering the wood so flexible that the staves can be bent to place without cracking. The heads are dressed and dowelled by two separate machines for the purpose. The cooper shop shaves with a spring knife. The hoops are cut by a circular machine and punched and ready for use. The whole barrel can now be put together ready for use. When finished they are all tested with a kind of bellows to see whether they are tight, before leaving the shop. There are eleven coopers and seven machine hands in this factory, who turn out on an average eighty barrels per day.

This is only one of the many cooperage establishments in the city, and the business appears to be rapidly increasing.

Division.—In our notice of Dr Geo F Lutz's Dental Rooms, the other day, we omitted to mention that the Doctor has secured the services of Dr Will in Combs of Bolivia, N Y, as mechanical assistant in the laboratory. In this young gentleman we combined habits of morality in society and politeness, which make him an exception to the general class of young men and gentlemen as it is desirable to have in business. We congratulate the Doctor on his happy acquisition.

In this connection it is but proper for us to state that Dr G H Smith of Titusville, was lately not having engaged an assistant operator in the mechanical department and will, in the future give his attention entirely to this branch of the profession.

While in the Doctor's rooms the other day we saw a piece of work that was executed by Dr N F Smith late of Philadelphia but now connected with Dr L. It consisted of building up a tooth strong and reliable (not to count) tooth only a more small. How the Doctor managed to make the gold bell exhibit so much adhesion upon so trivial a frame is one of the wonders of the dental art.

The Doctor informs us that he is on the eve of making several important and desirable changes in his office and in his list of appliances which will rank his establishment second to none in the State.

THE GAS AND WATER COMPANY.—This company are about to solicit subscriptions from our citizens for stock in this important enterprise. There is scarcely any investment that will yield sooner dividends than this, or one that is more eagerly sought by capitalists. There is scarcely an improvement so essential to domestic comfort, business convenience, and the general welfare as gas light. Gas is the cheapest, most and most serviceable light known. Once establish gas works here, and no store, or hall, or church, or saloon, or office, or hotel, or house of any size would long do without it. It will make our streets safe and easy to pass or cross at night. It will add ten fold to the attractiveness of Titusville as a place of residence. It will add a large percentage to the business transacted here. It has been delayed too long, to the detriment and discomfort of everybody. As we announced the other day, the company are now prepared to push this work to completion, without delay. Let every citizen, if possible, take stock in this "home institution."

MONTY FARM HOTEL, PITHOLE.—This Hotel will be thoroughly heated with steam pipes, and always warm and comfortable.

For the Morning Herald
To Insure.

[illegible]

Pithole City, Oct 28 1865

[illegible]

A GOOD MOVE IN THE RIGHT DIRECTION.—Bonton on Parrott st.—Mr. [illegible] & Comstock have undertaken, through the aid of private citizens from whom subscriptions are solicited, to put upon the common home the streets of the street.

Such an improvement, although involving but trifling expense, is not usual in the borough charter. The greatest need [illegible] in it, therefore, can only [illegible] through the like days of prosperity [illegible] [illegible] It has been proven [illegible] that the will prevent the decline [illegible] [illegible] [illegible]
